Small Worlds Expo City

Small Worlds ME introduces an awe-inspiring and innovative attraction concept that is totally new to the MENA region. It transports both young and old through a captivating world full of exploration and interactions, offering a carefree experience for parents and teachers.

School Explorer Visits

Look - Think - Learn

Key Competence

1. A natural and fun form of learning
2. Extend the learning experience to the classroom & home

Meet Small Worlds

Our world is designed to show how the Real World functions and fits together,

- Travel through continental Europe - from sea to mountains
- Experience the creative environment of model worlds
- Encounter operating logistic systems in a new light
- See digital automation in a different practice
- Interact with the Small Worlds

The learning experience

Small Worlds showcases the vast and complex outside world in a smaller and more accessible format. It provides a visual and interactive learning environment that encourages students to explore and find solutions for current challenges

Integral development

- Higher order of thinking
- Observation & Awareness
- Curiosity & Wonder

Engaging with STEM-based task questionnaires, students dive into an interactive learning environment where they can grasp practical, real-world concepts.

WHY YOUR SCHOOL should visit Small Worlds?

Learning magnifier

Our learning is child initiated, directed and self-sustaining.

Inspiring

Students can explore it in a creative way

Interactive

Experience hands-on interaction with the Small Worlds.

Relevant

We show the world around us, just smaller.

Accessible to all

We are open to all ages and/or disabilities. Everyone is welcome.

Safe and secure

Rest assured as the children explore a safe and confined environment.

Indoor

All year round controlled climate.

Screen-free

Brings kids away from devices like PC, phone, tablet.
